

Green Hosting Diploma

GleSYS AB hereby certify that the hosting services delivered to

Kepler Technologies AB

are environmentally friendly and powered by 100% renewable energy

GLESYS AB STRIVES TO MINIMIZE THE ENVIRONMENTAL IMPACT BY:

- Powering our data centers by energy labeled Good Environmental Choice (Bra Miljöval)
- Reusing electronics when possible and recycling all end-of-life products
- Distributing excess heat to district heating grids
- Minimizing travels and choosing eco-friendly transportation alternatives when possible
- Running our backup generators on EcoPar instead of traditional fossil fuels

GleSYS Environmental Management System is certified
in accordance with **ISO 14001:2015**
